J. A. WOODWARD, President

KENNEDY CRONE, Managing Editor

The Society's ambition is to make itself a real force in advancing geographical knowledge, and in disseminating information on the geography, resources, and peoples of Canada. In short, it aims to make Canada better known to Canadians and to the rest of the world.

As one of its major activities in carrying out its purpose the Society publishes this monthly magazine, Canadian Geographical Journal, which is devoted to every phase of geography—historical, physical, and economic—first of Canada, then of the British Empire and of other parts of the world in which Canada has special interest. It is the intention to publish articles that will be popular in character, easily read, well illustrated and educational to the young as well as informative to the adult.

The Canadian Geographical Journal is sent to each Member of the Society in good standing. Membership is open to anyone interested in geographical matters.

Membership fee is \$3.00 per year in Canada and other parts of the British Empire, which includes delivery of the Journal, postpaid. In United States and Mexico, 50c. extra, and in other countries \$1.00 extra, to cover additional postage.

The Society has no political or sectional associations, and is responsible only to its membership. All monies received are to be used in producing the Canadian Geographical Journal and in carrying on such other activities for the advancement of geographical knowledge as the funds of the Society may permit.
